It would also be interesting to live in an area where drift occurs, get exposed to drift then have an agency tell you that you weren't exposed to enough drift to be concerned about the exposure. The real challenge with this issue is being able to catch the full impact of the spray at the time when the spraying occurred.

Thanks – it would be interesting to hear Elizabeth's and Andrea's thoughts on the amount of exposure we need to be concerned with from aerial application of herbicides on people and fish.

Subject: FW: ATSDR Response to Beyond Toxics Petition

Good Morning Lori and Rick!

It was good to talk with you last week when I was visiting Seattle. During our meeting, I indicated that ATSDR was getting ready to make a decision regarding the petition we received concerning the Curry County, OR, herbicide misapplication that occurred in October 2013. The attached letter below was sent to the petitioner yesterday. I have also provided the letter to the EPA Region X Pesticide Office.

Please contact me if you have any questions concerning ATSDR's response.

Subject: ATSDR Response to Beyond Toxics Petition

Good Morning Kelly and Chad!

Thank you for sharing your June 2 response to Ms. Lisa Arkin, Executive Director, Beyond Toxics.

Attached is the Agency for Toxic Substances and Disease Registry's (ATSDR's) response to the Beyond Toxics petition request concerning the Curry County, OR, herbicide misapplication.

Please contact me if you have any questions concerning ATSDR's response.
